

NEMEO

THE KEYBOARD WHICH ADAPTS TO YOUR NEEDS_

The keyboard with 80 customizable keys_

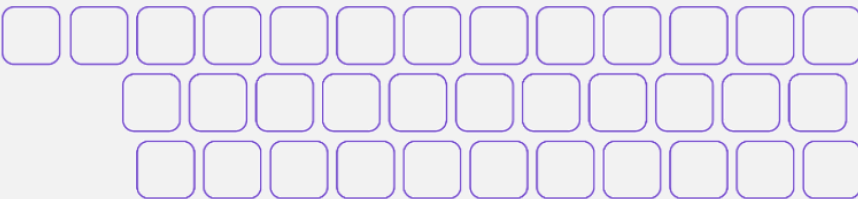

It's time to have a more powerful tool_

Do you or your team members use different languages, different softwares and combine keys for shortcuts daily?

It's time to find a keyboard with added value which will give you the edge over your competitors, making it a **more powerful tool**.

Nemeio adapts to your professional uses to unleash your potential, helping you **save time and energy**.

NEMEIO

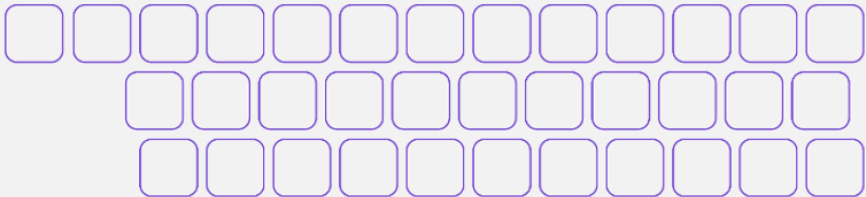

E Paper technology for endless possibilities_

Your need, your keys, your tool_

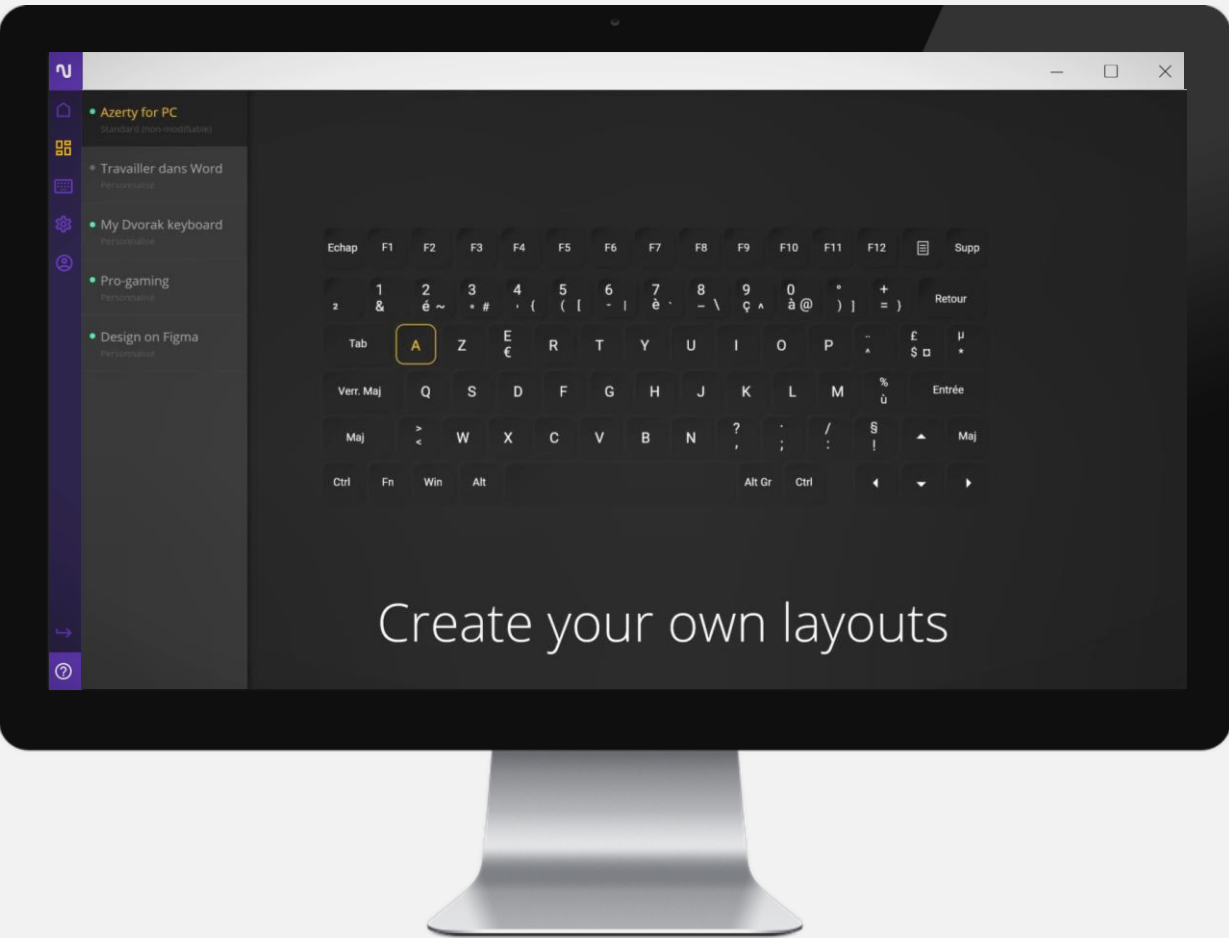

Nemeio features an **Electronic Paper display** with a **2400 x 1034 resolution** for instant and contextual customization.

This technology enables it to **digitally display all alphabets, symbols and icons.**

User friendly and intuitive set-up_

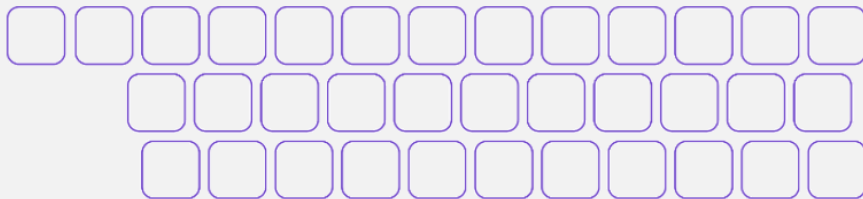

The Keyboard manager app to customize your keys_

Use the **free library of ready to install layouts** for linguistic (Qwerty, Azerty, Bopomofo, ...), creative or technical use.

Or **fully customize** the display of the keys depending on the softwares or apps you use.

You can also select the **Contextual Switch** feature which automatically switch to the perfect layout for your uses.
